To Whom It May Concern,

I first worked with Dynamic Alliance, LLC in 2007 when they repaired a 35,000 square foot roof after severe hail damage. This is a flat roof that had leak problems for decades; the roof has not had one leak in over seven years since Dynamic Alliance repaired it.

Our company recently received hail damage to multiple roofs. As the person in charge of insurance claims at our company, there was no doubt who I was going to call to repair the damage, Dynamic Alliance, LLC. I have seen their work for years and know of their reputation. We own a cranberry marsh and have several homes, and a large work shop, on the marsh that were damaged by a hail storm. Dynamic Alliance, LLC completed these projects in a professional and timely manner.

There is no doubt that Legacy Bogs will continue to use Dynamic Alliance, LLC in all future projects. I have already recommended them to other people and companies in the area, and outside the area, if they need work and will continue to do so.

In closing, I had undetected water damage at my own residence recently, and when it came to my own house, I was very happy to know who to call to fix my own house...Dynamic Alliance, LLC. With me, their reputation is impeccable!

Sincerely,

Mike Swendrowski
Vice president of Human Resources
